## **General Copyright Information:**

All photos on this website are copyrighted material and all rights are reserved..

All images appearing in the Drone360Photography website, unless noted otherwise, are the exclusive property of Fred Pais (“The Photographer“) and/or Drone 360 Photography and are protected under American and international copyright laws and statutes.

The images may not be reproduced, copied, transmitted or manipulated without the written permission of The Photographer. Images, videos, and photography under contract are provided for a specific time, purpose, and location as to the public posting. These copyright laws impose substantial penalties for infringement, and violators will be prosecuted to the full extent of the law.

In the case of Real Estate MLS listings, we license the use of the images to the listing agent of the property at the time the photo is taken. The license of use is extended to the agent for the amount of time that the property is for sale and then expires.

Photographs taken by The Photographer are not to be used for any purpose other than the marketing of the property listing. Agents must obtain permission from The Photographer to use the image for any other medium (marketing of agent’s services, calendars, website, etc.). Photographs taken for an agent cannot be passed on to another agent should the seller wish to change real estate agents unless the contracting vendor was the seller. If the home owner pays us for the licenses, then they can transfer the images to different agents for the purpose of marketing their home. The new listing agent will need to contact The Photographer. We do not allow photos from a shoot commissioned by one agent to be used by another agent. The Photographer requires that the new listing agent purchase one of our packages, and we will do the property again.

We are extremely flexible with how our customers use our images. We want to work with you to meet your needs. All we ask is that you discuss any transfer of media with us before doing so. Generally, we will be happy to license use of our images for other purposes for a small fee.

## **Access to Material:**

When the images, video, or photography is ready to be accessed, we will provide an invite through emailing to our Cloud account for a specific folder viewing and download. 360 photos and videos must be used on your personal Facebook page in order to be in accordance with the “Terms of Use” and to function properly as a 360 Panorama viewing.
